GRAND SIERRA®

Colors

Grand Sierra® Features

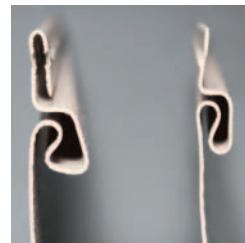

The classic beauty of freshly painted cedar clapboard ... designed and engineered for enduring performance. You'll appreciate its:

- Reinforced nail hem which can withstand 190-mph winds
- Oversized lock for greater stability
- 3/4" profile height for greater rigidity
- Low-gloss, "color clear through" cedar-grain finish
- Registered Medallion Lifetime-Limited Warranty
- .046" thickness to increase impact resistance

Notes: _____

Stronger Performance

Grand Sierra is designed for superior resistance to high-wind conditions. A locking mechanism with more locking area than standard vinyl siding and a reinforced nail hem contribute to a stable, secure attachment that is **certified by independent testing to withstand 190-mph winds.**

Grand Sierra Ordinary vinyl siding

- Reinforced nail hem
- Oversized lock
- 3/4" profile
- .046" thickness

Rigidity and Stability

The 3/4" profile height and oversized lock make Grand Sierra over than 200% more rigid than standard vinyl siding, so it will hang straighter, conceal minor wall imperfections and stand up to just about anything.

Grand Sierra Vinyl Siding
